*Case equals household, not individual people. For example, one case could be a parent and two children or a single person. Data from other sources may reference individuals, not households, which will cause numbers to be reported differently.

*These numbers are a point in time on the day the report is run; to get a true reflection, one should look at month to month changes.

FANF Cash - provides financial assistance to eligible families with dependent children

QMB - Qualified Medicare Beneficiary Assistance
